Nexus 2012-13 courses scheduled for deletion
07.10.2018

ITS retains LMS courses in Nexus on a rolling five (5) year basis from the end of the term a course is taught, as per the Learning Management System (LMS) Course Retention Policy. ITS will remove course sites more than five (5) years old this Summer 2018 on July 10th (i.e., Summer, 2012, Fall 2012, Winter 2013, Spring 2013 term courses). Exemptions to the policy are handled on a case-by-case basis. Instructors may request that a course be exempt from deletion by contacting me at snyderd2@union.edu

Documentation for how to backup your Nexus course website, student submissions, and gradebook to your local computer can be found on the ITS Web site. If you need assistance backing up your 2012-13 course website to your local computer, please contact helpdesk@union.edu and schedule an appointment with Learning Technologies staff.
