SHARE A PLAYLIST

Make sure that the course or individual video is added to your playlist. When in your video, click on the **Add to Playlist** in the menu in the upper right above your video, and then click on the playlist of your choice. In this case, I've added the video to my Work playlist.

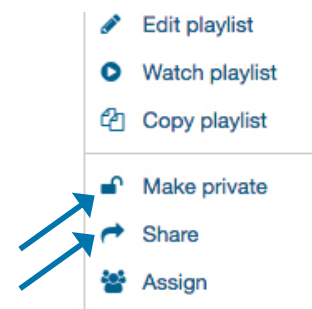

Hover over your name and click on **Playlists** to go to your Playlist Manager.

Make your playlist public by clicking on the **Make Public** link. The lock icon will now appear open and the text will switch to say Make Private.

Click on the **Share** link and then choose **Email** or **URL link**.

- Choosing **Email** will open a box where you can enter the email address and enter text.
- If you choose **URL link**, a box will open and provide you with a unique URL that you can copy and share. The person you're sharing it with must have an active account on **lynda.com**.
